

JAY AMANO

FRONT-END WEB DEVELOPER

818.264.8194 | jayamano57@gmail.com | www.jayamano.com

EDUCATION

Business Administration, Information Systems Concentration (B.S.) | 2014 – 2018

University of California, Riverside – Riverside, Ca

EXPERIENCE

FRONT-END WEB DEVELOPER

Modern Campus - Camarillo, Ca

08/2019 – Current

- Collaborate with other front-end developers, backend developers, QA engineers, and a UI/UX designer to produce high quality code, minimal bugs, and a functional, pixel perfect design.
- Act as the front-end lead for our Personalization team, which is a feature that allows clients to create personalized content for site visitors.
- Work in Backbone.js to develop highly efficient components that are fully accessible and VPAT supported.
- Participate in peer code reviews and weekly front-end meetings to stay up to date on front-end trends and discuss best practices.

FRONT-END UI/UX DEVELOPER (Contributor)

colonist.io - Los Angeles, Ca

06/2020 – 06/2021

- Built visual appealing front-end components in TypeScript and Sass, including the main store page.
- Assisted in front-end bug fixes and code reviews.
- Frequently communicated with founders and other developers to ensure best practices are being followed.

FULL STACK DEVELOPER

Seller's Place – Culver City, Ca

12/2018 – 08/2019

- Developed React components to build front-end functionality and rich user experiences.
- Involved in architecting the front-end React code base to adhere to industry standards and forecast for a future proof design.
- Created MSSQL stored procedures and API endpoints in Node.js and Express.js to query data.
- Involved in peer code reviews to maintain a high quality and high performant codebase.
